

Help us pay off our loan!

Has it really been two years??

Yes, very nearly. We purchased a lot at the lower end of Butters Canyon in June of 2007. As part of the payment, we gave the seller a promissory note for \$60,000, with total payments due in June 2009. The good news is the seller has generously reduced our interest payments and extended the loan.

In 2007 your contributions enabled us to make a \$40,000 down payment plus closing costs on the lot. Since then we have made an additional \$15,000 in principal payments reducing the loan balance to \$45,000. **We need to complete fundraising for this acquisition and retire the remaining debt!** With all our resources tied up in making payments on this loan, we aren't able to move on other canyon properties that may become available. **Please help us raise the \$45,000!**

Please donate whatever you can. If you can make a loan (ideally one that would be interest free and forgiven over time), that would be nearly as helpful. We recognize this economy has been a hardship for everyone, but we need all the help you can give. Your contributions benefit all of us, by helping to keep the beautiful stretch of Butters Canyon unspoiled. Donating to preserve the canyon is a powerful way of contributing to the neighborhood and protecting the environment. Thank you!

DONATION FORM

Yes! I want to help preserve Butters Canyon.

- I **DONATE** the following tax-deductible amount to Butters Land Trust:
___ \$25 ___ \$50 ___ \$75 ___ \$100 ___ Other (specify)
